DESIGN AND METHODS FOR SUSTAINABLE DEVELOPMENT PRACTICE

(LAS 6938 – 15804 / AFS 6905 - XXXX)

(Friday 9:35 am -12:35 pm in LIT 0113 / GRI 376)

Spring 2020

COURSE INSTRUCTORS
Glenn Galloway
Center for Latin American Studies/
Center for African Studies
466 Grinter Hall,
Phone: 352 392 3292
ggalloway@latam.ufl.edu

Other persons will potentially contribute to the course including Dr. Sarah McKune, Dr. Becky Williams, Dr. Paul Monaghan, and perhaps others.

OFFICE HOURS

The instructor has an open door policy when in his office in 466 Grinter. Regular office hours are from 2-5:00 pm on Tuesdays. Students are encouraged to write via email to arrange meetings at other times.

COURSE PURPOSE AND DESCRIPTION

The purpose of this course is to build practical skills and critical perspectives that empower participants to engage constructively in the planning, implementation and evaluation of sustainable development practice. This course is designed for students in the Master of Sustainable Development Practice (MDP) Program and also for students in other programs whose academic work and future plans include addressing sustainable development challenges. A combination of approaches are used to encourage student participation and collaborative learning.

PARTICIPANT LEARNING OUTCOMES

Students who engage fully in DESIGN AND METHODS FOR SUSTAINABLE DEVELOPMENT PRACTICE will be able to:

1. Design and apply an array of instruments to obtain useful quantitative and qualitative findings.
2. Organize data in Excel for analysis using this and other data analysis programs like SPSS.
3. Find and interpret data and literature relevant for specific development challenges.
4. Define and employ a set of key concepts.
5. Identify and be sensitive to power dynamics in development visions, priorities and projects.
6. Characterize several knowledge paradigms that underlie forms of development practice.
7. Reflect on own ethical and cultural positions.
8. Write a proposal for a relevant and feasible project for participating in development practice that manifests the knowledge and skills described in preceding 7 outcomes.

SKILLS AND KNOWLEDGE

We will build skills and understanding along five strands that must be woven together for meaningful and successful development practice.
1. **Tools for sustainable development practice**
Develop capacities to design and apply a range of methodological instruments commonly used in professional work such as needs assessments, project design, grant writing, training and curriculum development, monitoring and evaluation. Methods introduced may include questionnaire design, surveys, interviews, stakeholder analysis, focus groups, ethnographic and participant observation, participatory mapping, spatial measurements, time use diaries and calendars, and social network analysis among others.

2. **Critical thinking for sustainable development practice**
Increase awareness of ways in which development visions, priorities and projects are influenced by dynamics of power associated with different types of knowledge, cultural and political stances, colonial and geopolitical positions, gender and ethno-racial positions, and other factors. Strengthen conceptual foundations for interdisciplinary thinking with critical understanding of topics such as sustainable livelihoods; tenure and use rights; gender, class and ethnographic systems; agency; and community capitals and community-based development.

3. **Knowledge paradigms for different approaches to development**
Recognize that development practice is grounded in differing knowledge paradigms, and be familiar with main approaches: scientific enquiry, participatory action research, holistic ethnographic understanding, and appreciative inquiry.

4. **Proposal writing**
Build proposals through guided stages to establish context, identify host organizations, define objectives, assemble bibliography, outline budget, design proposed activities, obtain IRB approval, make verbal presentations and complete final document. MDP students will produce proposals for a capstone field practicum to be realized in summer 2020, and other participants may develop proposals for thesis research or related projects.

5. **Professional behavior, ethics and attitudes**
Consider key ethical and cultural issues addressed in IRB and other processes. Deepen self-awareness of ethnocentric stereotypes and assumptions. Deepen appreciation for role of commitment, constructive engagement, empathy and solidarity in successful academic and professional work.

These five strands of skills and knowledge work together to generate the kinds of understanding that gird all actions and stages of development practice. Examples of research methods or approaches MDP students have used in past field practicums include, among others, the following:

- Interviews – perhaps the most common method used
- Focus groups – also considered a type of interview
- Surveys – household and applied to different types of stakeholders
- Life histories / testimonies
- Participant and ethnographic observation
- Participatory mapping
- Spatial measurement and mapping (GIS)
- Time use diaries and calendars
- Social network analysis
- Stakeholder analysis
- Ranking and sorting exercises
- Review of gray literature and archival searches – historical analysis
- Legislation and policy analysis
• Studies into resource access and control
• Discourse analysis
• Supply and value chain analysis
• Research diaries/field notes

Attention will be focused on many of these during the semester, depending on the interests/priorities of the students.

REQUIRED READING:

Course Textbook:

We will also draw on the following:

Most required and recommended readings are available on the Canvas course website, in the “Files” section, and/or can be accessed electronically through UF libraries. In most cases, required readings will also be posted in the weekly module and supplemental readings will also be made available there.

Students are expected to do required readings and view videos before coming to each class.

A number of useful articles and books will be built up on the CANVAS website for future reference, understanding that each student will have unique information needs in the development and implementation of their field practicum. A list of useful sources is found at the end of this syllabus. Students are invited to identify and suggest additional materials on topics covered in the course.

COURSE POLICIES

Attendance Policies (https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/). Class meetings are a vital part of this course. All students are expected to complete assignments and readings before class, to arrive on time for each class, and to participate actively in classroom learning. Any absences will be reflected in the grade earned. Absences count from the first class meeting. In general, acceptable reasons for absences from class include illness, serious family emergencies, special curricular requirements, military obligation, severe weather conditions, religious holidays, participation in official University activities, and court-imposed legal obligations (e.g., jury duty or subpoena). Students shall be permitted a reasonable amount of time to make up the material or activities covered in their absence.

Personal technology in the classroom. During regular class time students may not use personal technology devices (laptops, mobile email devices, smartphones, mobile phones, iPods, iPads, and similar technologies). The instructor will indicate when devices may be used for select class activities. Exceptions will be made in the case of students who use personal technology devices due to documented disabilities, or students who need to leave a phone on in anticipation of emergency calls.
CAMPUS HELPING RESOURCES

• **U Matter, We Care**: If you or a friend is in distress, please contact umatter@ufl.edu or 352-392-1575 so that a team member can reach out to the student.

• **Challenges in Academic Writing, Grammar and Style**: “The University of Florida Writing Studio is committed to helping University of Florida students and faculty meet their academic and professional goals by becoming better writers. We support independent learning and encourage scholarship by providing one-on-one consultations, workshops tailored to specific classes (graduate and undergraduate), and faculty retreats focusing on publishing original research. Students and faculty at all levels and in every discipline are welcome! [http://writing.ufl.edu/writing-studio](http://writing.ufl.edu/writing-studio/)

• **Technical difficulties for E-learning in CANVAS**: please contact the UF Help Desk at: Learning-support@ufl.edu
  (352) 392-HELP - select option 2
  [https://lss.at.ufl.edu/help.shtml](https://lss.at.ufl.edu/help.shtml)

• **Personal Challenges**: Students experiencing crisis or personal problems that interfere with their general wellbeing are encouraged to utilize the university’s counseling resources. Both the Counseling Center and Student Mental Health provide confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career and academic goals, which interfere with their academic performance. The Counseling Center is located at 301 Peabody Hall (next to Criser Hall). Student Mental Health is located on the second floor of the Student Health Services in the Infirmary.

  1. **University Counseling Center**, 3190 Radio Road, 392-1575; personal and career counseling: [https://counseling.ufl.edu/](https://counseling.ufl.edu/)
  2. **Student Mental Health**, Student Health Care Center, 392-1171, personal counseling: [http://www.counseling.ufl.edu/cwc](http://www.counseling.ufl.edu/cwc)
  3. **Sexual Assault Recovery Services (SARS)**, Student Health Care Center, 392-1161, sexual assault counseling
  4. **Career Resource Center**, Reitz Union, 392-1601, career development assistance and counseling.

UF POLICIES

• **Disability Resource Center**: Students with disabilities requesting accommodations should first register with the [UF Disability Resource Center](https://www.dso.ufl.edu/disability-resource-center) (352.392.8565) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodations. Students with disabilities should follow this procedure as early as possible in the semester.

• **Software Use**: All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate.

• **Academic Misconduct**: Academic honesty and integrity are fundamental values of the University community. Work submitted for credit by UF students should not include any form of plagiarism, cheating, or unauthorized aid. Unless an assignment is explicitly identified as a group project, all work should be completed independently. Students should understand and follow the Student Honor Code that they signed upon enrollment at the University of Florida:

  “I understand the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action up to and including expulsion from the University.”

The University of Florida has put into place a new Student Conduct Code and Honor Code (see [https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/](https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/)). Please review it.

</table>

Training activities carried out in groups
Opportunities to practice a number of methods will be an important part of the class. The more energy/enthusiasm and creativity each participant invests, the more learning and empowerment s/he enjoys and facilitates for others. Examples of collaborative carried out in past years include the following:

- Questionnaire and survey design
- Participatory mapping
- Focus group facilitation
- Ethnographic observation
- Design and practice an activity from SEAGA (Socio-Economic and Gender Analysis) toolkit
- Framework for monitoring and evaluation plan
Survey and questionnaire design and application
Review carefully materials on questionnaire and survey design and application indicated on syllabus and posted under FILES, pay particular attention to warnings about common problems. Working in groups, design a short written survey questionnaire with 10 questions, 5 questions should be open-ended and 5 closed-ended. Clearly indicate the purpose of the survey and the population to be represented by survey respondents. Post survey on PAGE provided in CANVAS and bring copies of your survey to class to apply to colleagues.

Ethnographic observation
Start by studying detailed guidelines for this assignment and materials about ethnographic observation posted in the corresponding module (and other sources in Files). Groups will identify and research a phenomenon in one scene in Gainesville. Each student will carry out at least two hours of observation in a selected location where manifestations or of practices related to the select phenomenon can be observed.

The goal is not to interpret, judge or analyze. Observers should DESCRIBE exactly what they SEE, HEAR, FEEL, TOUCH, TASTE, COUNT. Work hard to refrain from imposing your own ethnocentric labels and subjective judgments. Each group will discuss their observations with the class. Multi-materials (maps, photos, drawings, lists) and acting out aspects of what was observed can be good ways to communicate complex scenes.

Focus group facilitation
Start by studying materials on focus groups on syllabus and posted in the corresponding module on Canvas (other sources available in FILES). Dr. Paul Monaghan will facilitate an in-class workshop on strategies and techniques for facilitating focus groups, and share insights into implications and challenges involved.

In all cases, we will also devote time to discussing how to record information derived from these methods in Excel and/or an appropriate database or statistical package.

GUIDELINES AND ASSESSMENT CRITERIA FOR GRADED ASSIGNMENTS

10 brief essays written in response to questions posed weekly on CANVAS discussion board
Each participant is expected to write and post an essay on CANVAS discussion board ten times during the semester. These short essays should be posted by 5 pm each Thursday in preparation for Friday classroom discussions, and may earn up to 2 points by following the criteria listed here, in addition to responding to specific guidelines/questions posted each week. The board will not be open the first or last week of the semester.

Required criteria for brief essays:
Be between 200 and 400 words in length
Respond to questions / topic for the week
Engage a quote from the week’s assigned readings
Raise a question for discussion

Written reflections may also include:
Reactions to other postings
Reference to personal experiences
Links to relevant materials, videos, websites
5 brief responses written in conversation with brief essays posted by colleagues on CANVAS discussion board
At least five times during the semester, each participant should respond to and dialogue with a brief essay posted by a colleague. Responses must be posted by 6 pm on Thursday, should be between 150 and 300 words long, and must make reference to one of the course readings or assignments.

Respectful and enthusiastic participation in and out of the classroom
The class will involve a great deal of interaction and discussion, and students will be rewarded for efforts to learn collaboratively with respect, empathy, enthusiasm and open minds. A basic requirement for such involvement is to arrive at each class meeting on time and well-prepared.

Literature search and annotated bibliography for a proposal for development practice:
Compile an annotated bibliography bringing together approximately 20 sources for your proposal. Each entry should include full bibliographic reference in APA author-date style, together with your own summary of elements that are relevant to your project. Follow the instructions on these sites:

How to Prepare an Annotated Bibliography

The set should include literature on the place where you intend to work (i.e. region, nation), on the topic (e.g. environmental education, reproductive health, microcredit, agricultural development), and on the theoretical or methodological approaches to be applied (e.g. community forestry, participatory action research, participatory mapping, women’s empowerment, etc.).

Seek out an array of at least 20 sources that may be useful for your proposed project. Suggested balance: 5 journal articles, 5 books, 5 websites, and additional sources relevant to your topic such as popular media, historical archives, legislation, videos, and statistical databases. Seek a mix of sources that represent perspectives/voices of relevant groups, e.g., men and women authors, scholarly and practical work, publications written by people based in Latin America or Africa vs. others.

Note: It is particularly important that you draw on these sources for the preparation of you field practicum proposal and later as references when drafting your final report. You will draw on these sources and others to prepare the literature review of your field practicum proposal and final report. Important: You will not simply paste this annotated bibliography in your field practicum proposal.

Series of 4 short written briefs (WBs) summarizing progress in developing proposals
Students will provide updates on opportune progress made in developing specific sections of their field practicum proposals as outlined below. These assignments will require the engagement of each student’s supervisory committee and the establishment of fluid communication with the host organizations with which the work will be carried out.

- **Written brief with initial statement of intent**
  Identify a preliminary title, a site where you intend to carry out your field practicum, thematic area(s), and write a reflection on how proposed topic meets FP requirements (see pages 35-47 of the Program Manual for an overview of the FP). Come to class prepared to present everything in this written brief.

- **Written brief on contact with host organization and involvement of supervisory committee**
  Outline the contact you have made with your proposed host organization, including communication with your primary contact or supervisor. Also, come prepared to describe in what way your supervisory committee has been involved in the process of securing your FP placement
• **Written brief on the preliminary objectives of your FP and, if appropriate, problem/s and/or question/s to address**

Prepare a written brief detailing the preliminary objectives of your FP and the associated problem/s and or question/s to address. In the prior week, a useful matrix will be presented to help you plan for your field practicum in a cohesive/logical fashion. The matrix (inserted here) has the following five columns:

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Problem to resolve, information to generate or question(s) to answer, task to complete</th>
<th>Methods to apply</th>
<th>Analysis of the information</th>
<th>Projected results/products</th>
</tr>
</thead>
<tbody>
<tr>
<td>General Objective (In this cell, indicate the overall objective of your FP)</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Specific objective 1</td>
<td>In this cell, indicate clearly the first specific objective of your FP</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Specific objective 2</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Etc.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

In the written brief, you will discuss columns 1 and 2 (prior to preparing this matrix you will have identified the broad area for field practicum, the selected topic, the site and your host organization).

• **Written brief with preliminary budget, proposed activities, anticipated products**

Prepare a budget utilizing the budget format that will be provided. You will be informed of the maximum amount of funds that can be requested, based on availability. In the derivation of your budget, you are expected to seek opportunities to cost-share and/or use funds from complementary sources. In a prior week, the process for developing the budget will be explained in depth. Also plan a set of proposed activities and identify anticipated products of your efforts.

**Preliminary proposal for funding**

Approximately midway through the course, students will be required to submit a brief (no more than 4 pages) preliminary proposal for funding (Friday, February 22). They will also have to file for IRB approval following institutional guidelines (ideally, during the last week of February). The preliminary proposal should include the following (for more information refer to page 38 of the Program Manual):

- Overall purpose of your field practicum
- Brief overview of context and background
- Proposed placement and description of host institution(s)
A bibliography may be appended to the proposal. Although the proposal should be as specific as possible, we recognize that conditions often change in the field.

**Full first draft of proposal for peer review**

In the weeks following the submission of the preliminary proposal, you will be required to enhance the depth and quality of your proposal. You will be expected to continue exploring the literature on the context and thematic areas corresponding to your field practicum and this should be reflected in the conceptual framework of your proposal and your bibliography. You will indicate methods to be applied and anticipated products/results of your field practicum, as indicated in the matrix discussed above. A detailed description of the field practicum proposal is found beginning on page 42 of the Program Manual in the section entitled: “The quality of the field practicum begins with the field practicum proposal”.

**Peer review of colleagues’ draft proposals**

You will be required to peer review two draft proposals prepared by your colleagues. Detailed instructions will be provided on how to conduct these important reviews.

**Oral presentation of final proposal**

Each student will give a polished presentation of his/her FP project proposal to the class, taking no more than 10-12 minutes for their presentation, with 5 minutes for questions (exact times will be determined by the number of students in the course). The following, flexible guidelines support students in the preparation of their presentations.

**Title of your project** (1 slide): Include the names of your supervisory committee members.

**Statement of purpose** (1 slide): Indicate in a concise way the purpose of your field practicum.

**Description of site** (1 slide): Provide an overview of the site/region where you will carry out your field practicum, including the primary organization with which you will be working.

**Contextual/Conceptual framework of your practicum** (2 slides): You will be encouraged to develop a graphic representation of the project dimensions and layers you will be focusing on during your field practicum and how your practicum fits into the overall context in which you will be working. Your presentations should reflect that you have made a significant effort to understand the context in which you will be working. It should also be clear that you are well-versed in the conceptual underpinnings of your work, including associated topics and debates frequently alluded to in the literature.

**Framework / matrix of your field practicum:** Concentrate most of the presentation on the framework/matrix of your field practicum, including the overall and specific objectives (1 slide); the problems and/or questions you hope to address (1-2 slides); the methods you intend to utilize (1-2 slides); a brief description of the analytical approaches you anticipate utilizing to analyze your information and experiences (1 slide) and projected results (which should relate clearly to your objectives) (1-2 slides).

**Preliminary timeline for your field practicum** (1 slide): Although your field practicum may not progress like clockwork, please present a didactic timeline indicating how you intend to use your time and meet your objectives during the weeks you will be engaged in the field.

**Presentation of preliminary results in country** (1 slide): Describe briefly how you might share your key, preliminary results with stakeholders, collaborators, interested academics and community members (including your host organization).
Potential problems (1 slide): Describe possible problems or limitations that might affect the timely completion of your field practicum and what measures you would take to reduce the disruptions these could cause.

Information Sources/References (1 slide)

Contribution: You will want to stress how this practicum may contribute to the organization, local communities or environments, and the student participant.

Final written version of the field practicum proposal

Once you have incorporated feedback from your peer reviews and your supervisory committee, you will prepare the definitive version of your field practicum proposal. It should be clear that the project proposed is relevant and feasible in the time available and that it will provide you with a meaningful opportunity to participate in development practice with a supportive host organization.

This version will be reviewed by the course instructor who will provide you with feedback on your proposal. In addition, it must be approved by your respective supervisory committee (can be secured after the end of the semester) and endorsed by the host organization with which you will work (must be obtained during the semester). Again, please refer to the Program Manual (beginning on page 42) that describes the type of information that is normally integrated into a quality field practicum proposal.
TENTATIVE COURSE SCHEDULE 2020 (10-18-2019)

This preliminary schedule will undergo some adjustments during the semester, depending on the availability of guest speakers, class interest in certain topics, and other unforeseen events. Updated information on class sessions will be posted on CANVAS and sent to students via email.
